

INDEPENDENT CONTRACTOR AGREEMENT

This Independent Contractor Agreement ("Agreement") is entered into immediately upon signing by and between OmniTech Solutions ("Company") and the undersigned individual ("Contractor").

1. Scope of Work The Contractor agrees to provide software development and consulting services as requested by the Company. The Contractor will complete all deliverables by the dates specified in the initial project brief.

2. Compensation and Liquidated Damages The Company agrees to pay the Contractor a flat fee of \$1,000 upon successful completion and acceptance of the deliverables. However, time is of the essence. In the event that the Contractor delivers the final product later than the agreed-upon deadline, the Contractor shall be subject to liquidated damages in the amount of \$100 per hour of delay, deducted directly from the final compensation, up to the full amount of the fee.

3. Intellectual Property and Inventions Assignment The Contractor agrees that any and all ideas, inventions, code, or intellectual property conceived, developed, or reduced to practice by the Contractor during the term of this Agreement—whether or not related to the Company's business and whether or not created during regular working hours—shall become the exclusive property of the Company.

4. Restrictive Covenants During the term of this Agreement and for a period of sixty (60) months following its termination, the Contractor shall not, directly or indirectly, engage in, consult for, or be employed by any business, entity, or individual globally that provides software development services.

5. Limitation of Liability and Indemnification The Contractor agrees to indemnify and hold harmless the Company from any claims, damages, or legal fees arising from the Contractor's work. Under no circumstances shall the Company's total aggregate liability to the Contractor for any claims arising out of this Agreement exceed the sum of \$1.00 (One US Dollar).
